

2010 Creative STORAGESM CONFERENCE

AN ENTERTAINMENT STORAGE ALLIANCETM EVENT  ENTERTAINMENT STORAGE ALLIANCETM

Paul Chapman, Senior Vice President of Technology, FotoKem

BIOGRAPHY

I have worked in the Video and Post Production industry in Los Angeles for over 25 years, having come from the UK in 1983 after a career in Software Engineering. My degree is in Computers & Cybernetics from University of Kent, Canterbury.

During the first 15 years I was very active in the Telecine community, working for both manufacturers and users, such as Rank Cintel, Unimedia and Unitel.

In 1996 I joined FotoKem, holding various engineering leadership positions. During the first part of his career at FotoKem i led the team that designed the infrastructure, implemented, and then moved into a new 60,000 square foot purpose built video Building.

I Currently hold the role of Senior Vice President of Technology at FotoKem. Responsible for evaluating, recommending and implementing all aspects of digital technology company wide. Recently I have been designing a new post production facility , Fotokem - Budapest, Hungary, This incorporates latest in film scanning and dailies technology along with an extensive Isilon Network Attached Storage and SAN storage infrastructure.

Just completed a 2-year term as section chair of SMPTE Hollywood section.
