

2017 Creative STORAGESM CONFERENCE

May 24th 2017 at the DoubleTree Hotel, Culver City, California

AN ENTERTAINMENT STORAGE ALLIANCETM EVENT  ENTERTAINMENT STORAGE ALLIANCETM

Janae Lee, Chief Marketing Officer, Agylstor Inc.

TITLE:

Unlocking the Future of Storage: A Vision of NVMe Based Systems

ABSTRACT

Common wisdom holds that non-volatile memories (NVM's) position in the storage hierarchy is firmly entrenched at Tier 0, enabling faster transaction processing than disk systems. But this common wisdom is wrong. This forward-looking discussion will offer an alternative view of the usability of solid-state storage- one in which flash enabled solutions provide functionality beyond i/o performance -including lower price-performance than disk -even for the large unstructured data that dominates media use cases.

BIOGRAPHY

Janae Lee is a co-founder of Agylstor, a startup focused on providing the premier solutions for transferring and storing large volumes of data. Janae has over 30 years in the data storage industry, including 17 years at IBM, where she led a variety of enterprise sales, marketing and product organizations. Following her time at IBM, she spent six years at data protection leader Legato Systems, followed by a career guiding startup companies and product divisions focused on disruptive storage software innovation, including Ava mar Technologies, Timespring Software, and the StorNext division at Quantum, where she led the strategic expansion of the company's portfolio of solutions including object (cloud) storage.
